EMERGE

BIOACTIVE COLLAGEN SHOT WITH
MACRO-ANTIOXIDANTS®
FROM NATURAL FRUIT

WHEN LESS IS MORE

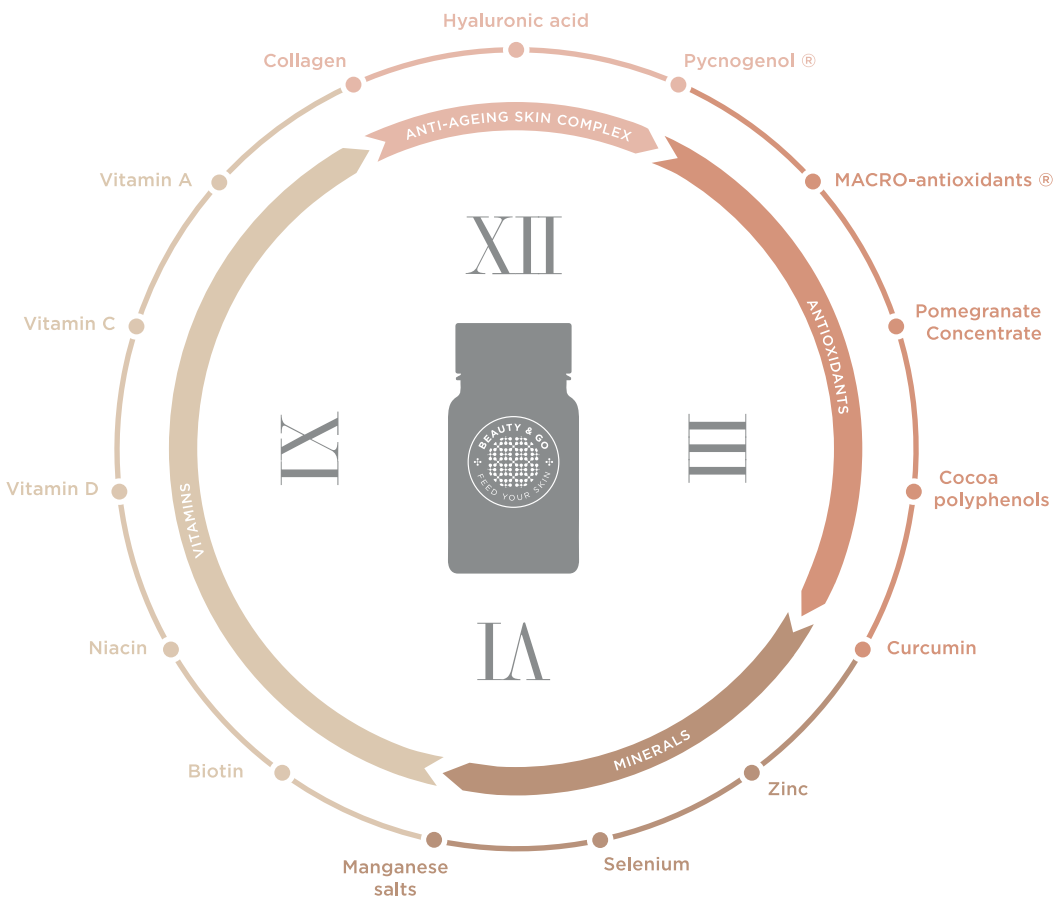

Beauty & Go Bioactive Collagen Shot is an age-defying supplement that protects and rejuvenates the skin.

Our unique high performance formula promotes collagen synthesis and maintains skin elasticity.

Drink 1 bottle per day. For effective results we recommend completing at least 30 days.

WITH MACRO-antioxidants® FROM NATURAL FRUIT

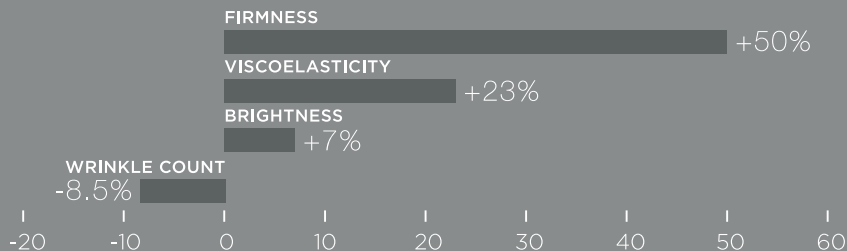

Exclusive to Beauty & Go, MACRO-antioxidants® are powerful antioxidant macro-molecules bound to natural fruit fibre. Our revolutionary ingredient is extracted from fruit peel where over 50% of a fruit's antioxidant capacity is located which means they do not form part of your usual diet.

Backed by over 15 years of scientific research by the Spanish National Research Council (CSIC), the health effects of MACRO-antioxidants® are 3x more powerful than conventional antioxidants. This allows for groundbreaking performance in fighting free radical damage and improving the skin's appearance.

CLINICALLY TESTED, PROVEN RESULTS IN 30 DAYS*

In an independent study on 50 women between 45 and 65 years old, Beauty & Go showed a significant improvement in key attributes connected to ageing.

*Individual results may vary but with consistent use your skin will continue to improve.

“

88% of volunteers
felt an improvement in
the overall appearance
of their skin

”

BEAUTY & GO
Beauty from the inside out.
